ROADSTER

BORN
OUT
OF
LINE

Rules? Not our jam.
Trends? Don't give a damn.

Stay single? Sure!
Two? Too!

The rascal? You can't resist.
The herd? Only wolves ride this.

Fit in? Not quite.
Stand out? Without trying.

Yezdi Roadster
BORN OUT OF LINE.

350 *alpha2* **ENGINE**

334cc liquid-cooled engine with power that kicks hard when you want speed, holds steady when you want control, and is built to take on every kind of road without breaking a sweat.

FEATURES REWired

NEW DECALS

Bold lines. Bolder graphics. This is your personality in motion. One glance and they'll know this bike doesn't belong in the herd.

DETACHABLE PILLION SEAT

Twin seat? Single seat? Your call. Switch between the two without hassle. The Roadster's pillion seat pops off without fuss, giving you a cleaner, meaner look when you want it.

FEATURES REWIRED

WIDER REAR FENDER

Whether it's rain, slush or a bad road day, it shields rider and pillion from the spray, so the ride stays cleaner and drier. And the bonus? It adds a chunkier, meaner, scout stance to the Roadster.

SIDE-ARM REAR HUGGER

Full attitude. The rear hugger sharpens the Roadster's stance and gives it that ready-to-attack look. It's not just styling, it's a statement.

FEATURES REWired

A close-up, low-angle shot of the rear tire and suspension assembly of a motorcycle. The tire is a wide, black rubber with a prominent tread pattern. A rectangular badge with the word 'ROADSTER' in white, block letters is mounted on the side of the tire. The background is dark and out of focus.

ROADSTER

WIDER 150-SECTION REAR TYRE

Extra width. Extra grip. Extra confidence. The beefier rear tyre locks you to the road, giving you better stability and control, making touring feel second nature.

MULTI-FUNCTIONAL BLINKERS

Future forward blinkers that don't just signal, they double as your tail light. No clutter, no fuss, just a cleaner rear end and a design that looks sharp from every angle.
